

PROHIBITED AREAS

Temporary use PRD Areas (as often used in extensive MIL exercises) are allocated 900 series, numbers. Details regarding vertical and lateral limits, activation times etc. are promulgated by SUP and/or NOTAM.

Time throughout this section is normally shown in UTC. Where local time is intended it will be followed by Local.

RESTRICTED AREAS

Temporary use PRD Areas (as often used in extensive MIL exercises) are allocated 900 series, numbers. Details regarding vertical and lateral limits, activation times etc. are promulgated by SUP and/or NOTAM.

Military Airspace Groups:

PRD areas belonging to Military Airspace Groups will be indicated in brackets with a group code alongside the PRD IDENT e.g. R625A (AMX). Military Airspace Groups define a group of PRD Areas for NOTAM briefing (See ERSA GEN-PF para 9 AVFAX DESCRIPTION AND CODE, PRD Groups). Military Airspace Group codes (e.g. AMX) may be used in NAIPS Location Briefing, SPFIB and on the Pilot Website's Restricted Area Briefing Tool.

Conditional RA (Restricted Area) Status:

In order to assist with shared use of airspace, all restricted areas have been allocated an 'RA Status'. This status will give an indication as to the likelihood of obtaining a clearance to fly through restricted airspace. NOTAMs may be issued to indicate changes to the RA Status; which should be checked prior to flight planning.

RA STATUS LEGEND:

Conditional Status RA1: Pilots may flight plan through the Restricted Area and under normal circumstances expect a clearance from ATC.

Conditional Status RA2: Pilots must not flight plan through the Restricted Area unless on a route specified in ERSA GEN FPR or under agreement with the Department of Defence, however a clearance from ATC is not assured. Other tracking may be offered through the Restricted Area on a tactical basis.

Conditional Status RA3: Pilots must not flight plan through the Restricted Area and clearances will not be available.

HOURS OF OPERATION:

Hours of operation referring to public holidays refers only to National holidays as listed at AIP GEN 2.1 para 4.1. Any other holidays affecting activation will be specified by NOTAM.

DANGER AREAS

Temporary use PRD Areas (as often used in extensive MIL exercises) are allocated 900 series, numbers. Details regarding vertical and lateral limits, activation times etc. are promulgated by SUP and/or NOTAM.

Military Airspace Groups:

PRD areas belonging to Military Airspace Groups will be indicated in brackets with a group code alongside the PRD IDENT e.g. R625A (AMX). Military Airspace Groups define a group of PRD Areas for NOTAM briefing (See ERSa GEN-PF para 9 AVFAX DESCRIPTION AND CODE, PRD Groups). Military Airspace Group codes (e.g. AMX) may be used in NAIPS Location Briefing, SPFBF and on the Pilot Website's Restricted Area Briefing Tool.
