

then the person must use their myCASA account to update the details or information not more than 21 days after the change.

- (3) A person must, as soon as practicable, give CASA specified operational information about the registered model aircraft, if CASA:
  - (a) considers that the information is necessary for the purposes of aviation safety; and
  - (b) requests the information in writing; and
  - (c) explains in the request why the information is necessary for aviation safety.
